Austin

# TEXAS EDUCATION AGENCY SCHOOL ACCOUNTABILITY RATINGS

(Ratings are based on the 2018-2019 School Year)
Updated August 15, 2019

The overall design of the accountability system evaluates performance according to three domains:

**Student Achievement** evaluates performance across all subjects for all students, on both general and alternate assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.

**School Progress** measures district and campus outcomes in two areas: the number of students that grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

**Closing the Gaps** uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic backgrounds and other factors. The indicators included in this domain, as well as the domain's construction, align the state accountability system with the Every Student Succeeds Act (ESSA).

#### Who is Rated?

Districts and campuses with students enrolled in the fall of the 2018–19 school year as reported for the TSDS PEIMS October snapshot are assigned a state accountability rating.

#### **Districts**

Beginning the first year they report fall enrollment, school districts and open-enrollment charter schools are rated based on the aggregate results of students in their campuses. Districts without any students enrolled in the grades for which STAAR assessments are administered (3–12) are assigned the rating label of Not Rated.

#### **Campuses**

Beginning the first year they report fall enrollment, campuses and open-enrollment charter schools, including alternative education campuses (AECs), are rated based on the performance of their students. For the purposes of assigning accountability ratings, campuses that do not serve any grade level for which the STAAR assessments are administered are paired with campuses in their district that serve students who take STAAR.

## **Rating Labels**

Districts and campuses receive an overall rating, as well as a rating for each domain. The 2019 rating labels are as follows.

#### **Districts**

- A, B, C, or D: Assigned for overall performance and for performance in each domain to districts and campuses (including those evaluated under alternative education accountability [AEA]) that meet the performance target for the letter grade
- F: Assigned for overall performance and for performance in each domain to districts and campuses (including AEAs) that do not meet the performance target to earn at least a D
- Not Rated: Assigned to districts and campuses that—under certain, specific circumstances—do not receive a rating

## **Single-Campus Districts**

A school district or charter school comprised of only one campus that shares the same 2019 performance data with its only campus must meet the performance targets required for the campus in order to demonstrate acceptable performance. For these single-campus school districts and charter schools, the 2019 performance targets applied to the campus are also applied to the district, ensuring that both the district and campus receive identical ratings.

In a few specific circumstances, a district or campus does not receive a rating. When this occurs, a district or campus is given one of the following labels.

**Not Rated** indicates that a district or campus does not receive a rating for one or more of the following reasons:

- The district or campus has no data in the accountability subset.
- The district or campus has insufficient data to assign a rating.
- The district operates only residential facilities.
- The campus is a Juvenile Justice Alternative Education Program (JJAEP).
- The campus is a Disciplinary Alternative Education Program (DAEP).
- The campus is a residential facility.
- The commissioner otherwise determines that the district or campus will not be rated.

**Not Rated: Data Integrity Issues** indicates data accuracy or integrity have compromised performance results, making it impossible to assign a rating. The assignment of a Not Rated: Data Integrity Issues label may be permanent or temporary pending investigation.

**Not Rated: Annexation** indicates that the campus is in its first school year after annexation by another district and, therefore, is not rated, as allowed by the annexation agreement with the agency.

#### **OVERVIEW OF THE 2019 STATE ACCOUNTABILITY SYSTEM**

Distinction designations are awarded to campuses in ELA/reading, mathematics, science, social studies, Academic Growth, and Closing the Gaps. Distinction designations are awarded to campuses and districts in Postsecondary Readiness. Campuses must be rated Met Standard overall to be eligible for distinction designations. Districts rated F overall and alternative education accountability campuses are not eligible for distinction designations.

\*STAAR results from EL students in their first year in U.S. schools are excluded from accountability calculations. STAAR results from EL students in their second year in U.S. schools are included via the EL performance measure. STAAR Alternate 2 results are included without regard to number of years in U.S. schools. For more information, see the 2019 Accountability Manual.
